FBI- King Section 56 Serials 3336-3418, 90 docs, 197 pp released

3336 is a virulently anti-Semitic letter. It received a polite response.

3339 Is the second record I recall on how the FBI could have picked Ray up earlier and failed to simply because it failed to do what it was supposed to do- knew it should do. On May 10 Memphis teletyped the Director, Urgent, requested that the Bureau advise Legat, Canada to check on the issuance of passports and available flights that could connectto Rhodesia

3350 13 pages of names from & Ian Fleming over Eric Starvo Galt, Also Rand.

* 3348 withheld all 7 pp on new gound,"Not withinscope of request." We should get

* 3374 withheld under 5. From St. L. Wonder if breakin or bugging.

3392 2 pp from St. Louis withheld under 5. Again questions black arts real reason.

Note on claim to b5: when this entire file is of the nature of the exemption and they have volunteered it can they claim the exemption? I think not.
